PROFILE STATEMENT

Passionate about **Data Analysis** with a strong interest in **AI, Machine Learning, and Deep Learning**. Skilled in developing data-driven solutions, predictive models, and scalable applications using modern technologies such as **FastAPI and full-stack development frameworks**. Enthusiastic about extracting insights from data and applying AI techniques to solve **real-world problems**.

TECHNICAL SKILLS

Languages: Python, JavaScript, PHP, SQL, Bash

Frameworks: PyTorch, TensorFlow, React, FastAPI, Node, Laravel

Libs/Tools: Pandas, NumPy, Power BI, Excel, REST API, Git, GitHub, BeautifulSoup, Postman

EXPERIENCE

Foodi Express Limited - A Concern Of US Bangla Airlines Ltd

Foodi HQ, Regnum Center

Executive - Commercial, Content Data Analysis & Management

Nov '25 – Present

- Analyzed and managed data of **20,000+ unique SKU's**, including competitor's price and margin mapping **to support data-driven commercial decisions**.
- Identified **top-performing SKU's** from competitor data **containing 29,000+ SKU's** and generated insights for sales strategy, product assortment, and inventory planning.
- **Automated manual workflows**, and contributed in requirement analysis for inventory management **to improve operational efficiency** through data-driven problem solving.

SHUJAN, Citizen for Good Governance

BRAC University

Web Design & Developer

Dec '24 – Jun '25

- Designed, developed, and maintained a responsive web platform for **SHUJAN (Citizens for Good Governance)**, an election monitoring organization.
- Developed a dynamic blog management system with content creation, editing, categorization, and search functionality.
- Built a secure admin panel for managing publications, election documents, achievements, and organizational content.

PROJECTS

Vendor Sales Performance Analysis | Python, SQL, Pandas, Scikit-learn, SQLite database

Sep '25

- Analyzed 12.8M+ sales records, revealing a 72% cost reduction from bulk purchasing and a 65.7% vendor risk.
- Designed inventory strategies by identifying margin differences and slow-moving stock to improve profitability.

Skill Swap | React, FAST API, Python, SQLite, JavaScript

Aug '25

- Developed a full-stack skill-sharing platform where users can register, teach/learn skills, and create events.
- Implemented user interaction features like comments and ratings, with admin controls for platform moderation.

EDUCATION

BRAC University, BSc in Computer Science and Engineering

Dhaka, Bangladesh

Courses: Compilers, OS, Computer Architecture and Graphics, Data Structure and Algorithms

Jun '21 – Jul '25

ACHIEVEMENTS

Microsoft AI Product Manager Professional Certificate

Certificate Link

Learned market research, cloud strategy, and UX/UI design using Azure, Power BI, and Copilot.

Jul '25

Machine Learning Specialization Certificate

Certificate Link

Covered supervised/unsupervised learning, recommender systems, and reinforcement learning.

Jun '25

Deep Learning Specialization Certificate

Certificate Link

Built CNNs, RNNs, Transformers; applied Dropout and BatchNorm for NLP and speech tasks.

Jun '25

IBM Data Science Professional Certificate

Certificate Link

Hands-on in Python, SQL, data analysis, visualization, and a data science capstone project.

Apr '25

RESEARCH EXPERIENCE

Enhancing Multi-class Malware Detection in Resource-constrained Environments

BRAC University

Undergraduate Thesis — Python, Scikit-learn, Pandas, Genetic Algorithm, PCA

Jun 2024 – Jun 2025

- Applied machine learning and feature optimization techniques on a dataset of 60k+ samples to improve multi-class malware detection performance.
- Trained and evaluated multiple models including Random Forest, LightGBM, Decision Tree, and KNN to identify the best-performing approach in resource-constrained environments.

LEADERSHIP / EXTRACURRICULAR

BRAC University Computer Club

BRAC University

Senior Executive

Oct '21 – Dec '24

- Led creative department with 120+ members to design excellent pictures for events.

BRAC University Research For Development Club

BRAC University

Senior Executive

Apr '23 – Jun '24

- Led event management department with 100+ members to organize successful events.
